But what is shuffleboard?

Here is the link to what shuffleboard is.

It is especially fun and challenging for groups!

How is payment arranged?

Groups will receive a bill from us at the end with the table arrangement and a specification of all the drinks. Drinks cannot be paid separately upon ordering or when settling the bill.

You can give us a maximum amount and we will notify you when that amount comes into view. The drinks account is then closed. By exception with big groups it is possible to work with coins. We will provide you with an x amount of coins; the selling of the coins will be done by you. In the end you hand in the remaining coins and pay for the missing ones.
